On the Loan Detail page, at the bottom left-hand corner of each Loan Detail card, last updated information displays. Last updated information details are listed below.

- **Last Updated** - Date the information was last updated.
- **Method** – Latest method used to submit the loan details information
- **Source** – The entity that reports specified data.

If there is no information to populate a particular Loan Detail section card, the Loan Detail section does not display. For example, if a Loan does not have IDR Progress towards Forgiveness, the IDR Progress towards Forgiveness does not appear as a section on the Loan Details page. **Note** – CDR information does not contain last modified information because the information is sourced from fields throughout the Loan Detail page.

LOAN DETAIL (AUTHORIZED USER)

On the bottom left of the Loan Details page, authorized users can click **Delete Loan** to delete the Loan Record.

Note – During an update session for Federally-Held loans, when an FLS user deletes a record, the record automatically is removed from the display. The action is saved until the user selects **Submit**.

NSLDS allows authorized users to delete a Loan Record that has no Disbursement record or a cumulative disbursement amount equal to \$0. Loan Records that do NOT meet the criteria for the Loan Record to be deleted OR the logged in user does NOT have privileges to delete a Loan, NSLDS does NOT display the **Delete Loan** button.

To Delete Loan:

- 1) Click **Delete** at the bottom of the loan record

- 2) Confirm details of the loan record in the pop up
- 3) Select the box to **acknowledge the statement**
- 4) Click **Delete Loan**

Note: If the Loan Record being deleted is the only Loan Record for the Aid Recipient and the Aid Recipient has no other aid in NSLDS, NSLDS deletes the Aid Recipient in addition to the Loan Record.

On the bottom right of the Loan Details page, authorized users can save all updates made during a session for FFEL and Perkins Loans.

For Commercially Serviced FFEL Loans, authorized users can submit edits online using one of the following methods:

- Submit without batch locking the Loan Record
- Submit with batch locking the Loan Record with making edits to the Loan Record
- Submit with batch locking without making any edits to the Loan Record

The batch lock functionality allows users to submit updates to Commercially Serviced FFEL Loans on the NSLDS Professional Access Website, while preventing the Data Provider from reporting and processing updates on the Loan Record via normal batch reporting. Therefore, once a loan is batch locked, NSLDS does not process the GA Batch reporting received by NSLDS for the Loan Record

Users can Unlock a Loan via the Loan Details Page by clicking the **Unlock Loan** button at the top of the Loan Details page. NSLDS only displays the Unlock Loan button if the Loan Record is locked.

Once a User clicks the **Submit** button or the **Submit and Lock** button, NSLDS submits all the data elements for the Loan Record. NSLDS displays a 'Confirm Updates' pop up. Within the pop up NSLDS asks the user to confirm the submission of edits made to each record.

For School Serviced Perkins Loan Records, authorized users can **Validate** their edits made to one or multiple sections against the entire loan record, prior to clicking **Submit** for the loan record.

FEDERALLY HELD LOANS

A user can determine the type of Direct Loan by viewing the Loan Details card at the top of the page. The Loan Details information card displays the following information:

- **Loan Last Updated Date** - The date the loan was last modified via web, batch, or spreadsheet submittal.
- **Federal Serviced Loan Note** - Hyperlink that displays a pop up with explanation of a Federal Serviced Loan Record.
- **Number for the Loan Record** - Unique identifier for the loan record assigned by NSLDS.

The Loan Details page contains individual loan record details. If the Aid Recipient has multiple loan records, the user can click **Next** located in the top right corner to navigate to the remaining loan records. The Loan Details page contains a navigation page on the left side of the page to allow the user to move between sections.

When viewing a Federally Serviced Loan, the page is separated into the following sections:

- Loan Information
- CDR Information
- Loan Status
- Rehabilitation
- Activities
- Collections
- Claim Details

- Public Service Loan Forgiveness
- Loan Holder History

Overpayment Status	Definition
Overpayment	This is the value that a school uses when first entering an active overpayment into the system. It means that the student owes the overpayment, has not made satisfactory arrangements to repay, and should be considered ineligible for additional Title IV aid until the overpayment is repaid or otherwise resolved.
Repaid	This value means that a previously reported overpayment that was in either Overpayment or Satisfactory Arrangement Made status has been fully repaid by the student. Schools should update NSLDS when the final payment has been made. The date that the final payment of the overpayment was made should be entered at that time. A value of Repaid does not produce the overpayment flags and messages on SARs and ISIRs.
Satisfactory Arrangement Made	This value means that while the student still owes the overpayment, he or she has made arrangements that are satisfactory to the school to repay the overpayment. A status of Satisfactory Arrangement Made reported to other schools on a SAR or ISIR (or in the FAT process of NSLDS) provides documentation that the student may continue to receive Title IV aid. In the event that the student fails to meet the commitment made with the school for the arrangements to repay, the school should immediately reset the overpayment Indicator field to Overpayment.
Fraud	This value indicates that a student has been convicted of fraud. This means that the student has been convicted of fraud, still owes the fraudulently obtained funds, and should be considered ineligible for additional Title IV aid until the funds are repaid.

Overpayment Repayment Date

The date the overpayment was paid in full.

Overpayment Source

The code identifying where the overpayment exists.

Overpayment Source	Definition
Transfer	When a school has transferred an overpayment to the U.S. Department of Education's Debt Collection Service (DCS), the school should update the previously reported overpayment information in NSLDS by changing the Source field from School to Transfer. This change does not invalidate the overpayment, but it does inform any user of the system that the debt is in the process of being transferred from the school to DCS.
School	Whenever a school is attempting to add a new, or update an existing overpayment record; this field is automatically updated with SCH.
ED Region	The debt is now held by one of the U.S. Department of Education's Debt Collection Service regional offices.
